GUIDING YOUNG PEOPLE ALONG LIFE'S JOURNEY

FACT SHEET

Pathways Services

Our Services

As a specialist independent provider of residential child care, Pathways believes in individualism. Young people living at Pathways are encouraged to feel that this is "their home". Our multi-disciplinary Staff Team is diverse and have unique life experiences which allow them to bring something different to the culture of the home.

We believe that a young person can often be overlooked while their presenting issues are focused upon. We therefore, like to look at the child and assess their needs and ensure our care plans focus on the most effective interventions for that child/young person, creating a culture of care that focuses on achievements and positives.

This service is complimented by our innovative range of transitional support services and packages which offer effective staged transitions, bridging their move to independence. This gives them every possible chance to succeed in their transition into adult life.
